FAHMI GHOZALI

Backend Developer & Quality Engineering | Bandar Lampung, Indonesia |
fahmighozali66@gmail.com | github.com/fahmigh16

SUMMARY

D3 Manajemen Informatika student at Politeknik Negeri Lampung. Build reliable backends with Node.js, SQL, and Flutter. Focused on system quality, API testing, and database design.

SKILLS

Backend: Node.js (LabCare chatbot + 9router LLM retry logic), SQL / database design (chat_sessions, kb_documents, movies-genres relations), API testing (Postman), Cloudflare Workers + D1 (Wrangler), Python (stdlib + SQLite).

Mobile: Flutter / Dart (film catalog, search, favorites), SQLite / sqflite (films, genres, film_genres, favorites), REST API client.

Tools: Git / GitHub, Postman, VS Code, 9router LLM.

PROJECTS

LabCare AI Agent

Campus facility reporting backend with AI chatbot, retry logic, chat session database. Node.js, SQL, 9router LLM. Repo: github.com/fahmigh16/LabCare-Sistem-Pengaduan

KunjunganEdukasi

Educational visit information system, backend + database role, campus team project. Repo: github.com/fahmigh16/KunjunganEdukasi

CariMakan App

Food place search web app (HTML/CSS/JS). Repo: github.com/fahmigh16/carimakan-app

Movie Catalog (Flutter)

Offline-first film catalog with SQLite relations, real-time search, favorites. Flutter, Dart, sqflite.

Kantor Agent

Serverless multi-agent system on Cloudflare Workers + D1 with fallback logic for API rate limits.

Kimi Coffeehouse QR Menu

QR ordering system: /pay, order status API, payment proof upload. Python stdlib + SQLite.

EXPERIENCE

Head of Media & Information - Himpunan Jurusan TI (2024 - Present)

Led 10+ members managing digital communication and technical publications at Politeknik Negeri Lampung.

Backend & Database Developer - LabCare Project (2025 - 2026)

Built AI chatbot backend with 9router LLM and retry logic; designed chat_sessions and kb_documents schemas.

EDUCATION

Politeknik Negeri Lampung - D3 Manajemen Informatika (2024 - 2027 est.). Focus: SQL Programming, Mobile Development (Flutter), System Analysis, Backend & Database.
